**Re:** National Incident Data Repository Safety Brief

---

The biannual [National Incident Data Repository Safety Brief for Nova Scotia](#) has been released for the period of October 2022 – March 2023.

The safety brief provides Nova Scotia specific data on the types of medication incidents reported and level of harm. Shared learnings from medication incidents reported across the country are also highlighted.

Insights from medication incidents are valuable learning opportunities for everyone. For more safety recommendations, please read the [ISMP Canada Safety Bulletins](#).
